Affinity Diagram

Ergonomics
- Comfortable
- Accommodating for different drivers
- Easy ingress/egress
- Contours for packaging concerns
- Adjustability

Performance
- Light weight
- Robust Design
- Stiffer than current chassis
- Downforce @ skidpad speeds
- Faster lap/accel times
- Rear weight bias

Manufacturing
- Cheaper tooling
- Autoclaved parts
- Minimum jigging
- Easily create complex contours
- Repair procedure
- Smaller labor force

Safety
- Capable of cone hits
- Structurally equivalent
- Steel roll hoops
- Impact rules compliant
