Horizontal Adjustment

- Motor
- Machine control adjustment
- Rotate and gears widen and narrow spine

Stand

- 2 gears, not flowers!

Tripod for stand

- Light weight
- On wheels (why???)
- Yes!
- No? OK

Joints

- Elastic band keeps in place
- Pull out to adjust (similar to knee)
- Cause too much tension?

Sensors

- Opposing air muscle to lock joint
- Load as air bags to tighten around joint
