

## **Meeting – January 17, 2012**

Responses from faculty for SDR:

- Boedo and Bailey not attending
- Lam can attend from 2-3
- Haven't heard back from anyone else

Dr. Boedo confirmed that the bolt analysis for SDR is accurate

Completed analysis of initial vibration model – acceleration and displacement plots produced

Completed SDR Powerpoint presentation

- Slides finalized
- Determined who was going to talk about which slides

To do for Wednesday:

- Print packets to hand out for SDR attendees
- Khakis and button-up shirts
- Practice slides
