

**January 7, 2012**

Goals to find out from Friday's Review

To Bring:

Paula:

Marbella:

Ali:

Kelly:

Connor:

Eric:

Make list for budget info and email people to find out the prices needed

**Goals to find out from Friday's Review**

Selecting microcontroller

Feedback on enclosure

Ergonomics

Look of the model

**To Bring:**

Architecture on paper

Printed rendering

3d model?

Documentation online to back up decisions:

Put in: Systems Design folder (preferably PDF)

Surveys and results

Refine budget

**Paula:**

Invite professor for review

Update measurements

Upload PDFs  
Views of design in different angles  
Help with concept  
Models?  
Outline with ear

**Marbella:**

Pick up surveys  
Gather info  
Edit microsoft project for review  
Measurement no.44  
Update house equality, concept matrix  
See Dan Phillips  
Make slide about customer feedback  
Benchmarking

**Ali:**

**Kelly:**

Cost for prototyping  
Printing project summaries  
Uploading benchmarking and info to Edge

**Connor:**

Emailing Dr.Slack  
Finish electrical architecture  
Documentation to edge  
Review batteries  
Making up requirements for chips  
Chip research

**Eric:**

Make list for budget info and email people to find out the prices needed  
Put up information on Edge PDF only  
Requirements with connor

Electrical architecture

**Ron:**

- Benchmarking
- Upload chart for specs
- Finish software architecture

**Nanxi:**

- Upload PDFs
- Views of design in different angles
- Finalize concept
- Models?
- Outline with ear
