

Description

This is the current crank arm with the new force of 25lbf evenly distributed along the pedal shaft.

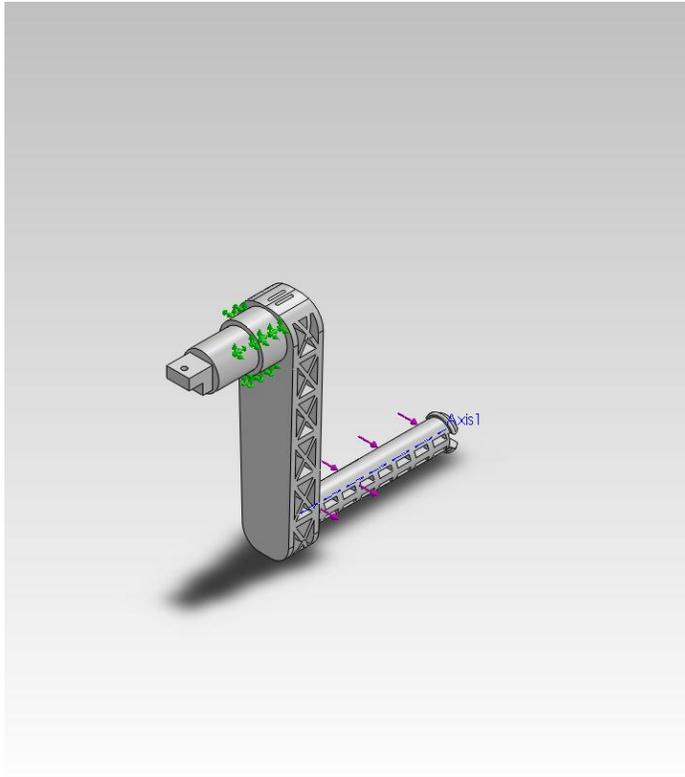

Simulation of Current_Crank_Arm (F)

<p>Force-2</p>	 A 3D CAD model of a crank arm, which is an L-shaped component. The vertical part is on the left, and the horizontal part extends to the right. A red rectangular plane is shown on the top surface of the vertical part, with green arrows pointing downwards, representing an applied force. The horizontal part has blue arrows pointing to the right, representing a reaction force. The label 'Force-2' is visible in the left column of the table.	<p>Entities: 1 face(s), 1 plane(s) Reference: Plane2 Type: Apply force Values: ---, ---, 25 lbf</p>
