

Topics Discussed:

Loss of Pat from Team

no work was assigned to him yet

Group email

MSD14045@googlegroups.com

Everyone now receives messages posted to the group.

Updated website

Engineering requirements added

Group expectations also added

Project Lead:

Lead meeting and set agendas

Greg chosen

Engineering Leads:

One for each discipline

Just to make sure everything is going to work together and checks out

ME: Alex

EE: Martha

Design Drivers and Design Challenges

Drivers:

- incorporating sensors into control scheme
- multiple input devices (ipad, joystick)
- remote control
- mounting hardware professionally
- larger stander?

Challenges:

- implementing motor driver/encoders
- wires through stander frame?
- smooth operation
- overall weight

Other Groups: check out 13041 they did a motorized walker
