

Went through the suggestions given by Gerry in the meeting on 9/3.

We came up with three or more ways to measure if we had completed each step outlined.

We essentially finished up the Customer Needs and Engineering requirements, pending future insight.

We wrote on Google Docs everything we thought needed to go into our Problem Statement.

We gathered a list of everything we needed to cover in our power point for the review 9/12, made up a very loose outline, and began assigning roles.
