

Full integrated system demo w/ customer 4/22/14P14043 Notes:

- well below projected costs
- Final prototype assembled
- Technical paper only action item other than poster to complete (on track for all deliverables)
- Have not heard back about external submissions
- Lessons Learned: Assembly processes
- Device weighs 8.6 ounces, approx. 12 manufactured parts
- No plan in place yet to prepare customer.
- Group P14418 gave the group a 4.1/5.0

Feedback from Guides. (Full Integrated Systems Demo w/ Customer)Gary:

- Tracking Chart = good
- Reassess plan from present date, determine what needs to be done differently
- Not enough confidence that all action items will be complete before end of MSD II
- Team Interaction = No flow
- Team Dynamics issues still exist

Gerry:

- concerned that new plan has more credibility

P14417 Notes:

- 3 prototypes
- Cleaning testing conducted
- ~~the~~ Crevices where dirt can accumulate not considered
