- PTs
 - o Omega PTs are NIST certified
 - o Kistler has PTs in bars not psi and not much/any useful specifications
 - o PCB didn't have many PTs listed on website. Neither prices
 - o As per suggestion by Cooper, found a 0-1000psi PT from Omega with voltage output

ACTION ITEMS:

Mitch/Kyle: Valve and actuator info- breaking was an option

Anushka : fix changes in SSRD, send p/n from Kistler and PCB to Jake to send to Cooper

Brian: shields for PTs? Ball valves for PTs?

Jake: More controller info/options
