

- Reviewed everyone's previous tasks for the FMEA analysis.
 - o Each assigned a section
 - o Talked about the grading scale and whether they were all appropriate and made changes where we saw fit.
- Re-ranked the Design Concepts to make sure it wasn't biased to our picked design.
- Based off of our Design Concepts, they two feasible designs were then compared against one another for differences and similarities.
 - o Data Transmission- Wired vs. Wireless
 - o Hold Component- Manifold vs. Inline

Action Items:

- Test Plan- Anushka
- Update Gantt chart to reflect last three weeks and more accurate future- Brian
- Pareto Chart off of the HOQ- Mitch
- Engineering Analysis- Kyle
- Engineering Analysis- Jake
