

Potential Failure Modes	Potential Effects of Failure	Potential Causes of Failure	Severity	Probability	Rank	Recommended Action
Interferes with pressure transducers	Inaccurate Test	Improper Spacing	2	1	2	Add spacers to allow for enough room
	Loss of Test Control	Not secure during testing	2	1	2	Fasten directly to wall
	Failure to Meet Operating Standards					
Does not stop water/impacts	Permanent Damage to System	Weakened/Damaged material	1	1	1	Use stronger material if necessary
	Failure of Components
