

Team P17046

Engineer: Chris Fenn

Entering Phrase: Subsystem Build & Test

What do I plan on doing to ensure that Team P17046 has a successful Phase 8 review?

1. Continue to utilize the master schedule and make sure we are on schedule.
2. Track what are in need of completion
3. Update any issues that appear during the process
4. Continue working on Poster and Technical Report

You will answer these three questions when you submit at the end of Phase: Integrated System Build & Test.

1. Was my team on track?
2. Did we have a working prototype Integrated System to demonstrate?
3. Technical Report 50% completed?
