

“Overcoming Challenges – Changing Lives”

Physical disabilities can prevent people of all ages and backgrounds from having the opportunity to participate in numerous physical activities. Overcomer™ is a revolutionary adaptive fitness system that allows users with mobility challenges to engage in fitness and recreation like they couldn't before. This product was designed to increase an individual's inclusion, independence, and endurance. In collaboration with Inclusivity Incorporated, the Overcomer™ incorporates games such as soccer, hockey, baseball, and catch for a full positive user experience. So come and see the Overcomer™ in action and in this fun, interactive, and one-of-a-kind exhibit!
