To Whom It May Concern,

We are requesting the following items to help build a mezzanine within the SportsNet storage facility. SportsNet is a branch of CP Rochester, a local nonprofit, which provides those with disabilities the opportunity to enjoy adaptive sports and recreational activities. Currently their storage facility is not efficiently organized and contains safety hazards to those removing or storing the equipment. The goal of this project is to improve space utilization within the facility to making storing and locating the equipment more efficient and safe.
