

**Team: 18262** \_\_\_\_\_

**Engineer: Jacob Allison** \_\_\_\_\_

**Entering Phase: Phase 4**

**What do I plan on doing to ensure that Team P18262 has a successful Phase 4 review?**

1. Finish testing Slave 4.1 boards.
2. Verify full system functionality.
3. Start work on customer handoff.
4. Work on presentation material.

**You will answer these three questions when you submit at the end of Phase 3.**

1. What did I actually do?
  - a. Built and tested 4.0 slave boards.
  - b. Made revision changes for 4.1.
  - c. Built and tested 4.1 boards.
  - d. Identified issues in the 4.1 boards.
2. What did I learn?
  - a. Found ways for debugging the boards.
  - b. Discovered effective methods for manufacturing.
  - c. Identified possible weak points in manufacturing.
  - d. Found issues with 4.1 boards.
3. What do I plan on doing to ensure that Team P1862 has a successful Phase 4 review?
  - a. Keep all tests and issues documented.
  - b.
