

8/31/17

Purpose: Develop one use scenario for the test bench to see a possible way that it can be utilized, and develop a list of customer reqts.

### Customer Reqts.

- All components of the electrical system can be quickly mounted to the test bench
- The test bench is grounded safely.
- The items which require fusing are fused safely.
- Cart can be moved throughout Gleason.
- Feedback is provided to the user as to which systems are functioning properly and which are not.
- Different types of each component can easily be added to the test bench.
- All major components have space to be adjusted while on the test bench.
