

Team: P18371

Engineer: Mike Warren

Entering Phase: 1, MSD II

What do I plan on doing to ensure that Team P18371 has a successful MSD 2 Phase 1 review?

1. Create manufacturing documents for fabrication.
2. Begin assembling a plan for fabrication with the materials that we have, and determine what materials we will need.
3. Help EEs with creating a preliminary design for sensor circuits and data output.

You will answer these three questions when you submit at the end of MSD 2 Phase 1

1. What did I actually do?
2. What did I learn?
3. What do I plan on doing to ensure that Team P18371 has a successful Phase
