

## **Matt Kardach MSD II Plan**

In order for the team to have a successful MSD II, I need to:

1. Lead the effort for testing concrete samples
  - a. Contact Professor Humphrey about lab schedule for next semester
2. Finalize test roof design and build BOM
3. Calculate cost of test roofs (tile and zinc)
4. Finalize test plans for test roof
  - a. Acquire sensors
5. If necessary, pour and test more samples
6. Assist in creation of normal tiles and top tiles
7. Construct the test roofs
8. Lead the effort for testing the roof
