

1/28/19

Notes

- Stay in constant contact with the IRB process
- Update for the BOM
- Software
 - Having problem with C++ and HC-05 connection
 - Have several KST files for multiple plots
 - Allows user to modify plots for personal needs
 - Still working on cleaning up GUI code so it doesn't get messed up
- Test Plan
 - Did individuals test plans for each engineering requirement
 - Followed the layout/template given to us by MSD II
 - Conservative dates for when tests will be
 - Don't have pass/fail criteria
 - Relook at what can be measured
