

Team: MSD 19105 Engineer: Mathew, Nevin

Entering Phase: Integrated System Build & Test

What do I plan on doing to ensure that Team P19105 has a successful Phase (7) review?

1. Each team member should 3-5 specific tasks that he or she will complete prior to the next review.

Task 1: Complete assembly of linear motion system.

Task 2: Test clamps on the linear motion system.

Task 3: Ensure rails are parallel and on the same level.

Task 4: Ensure base of the I Beam is all the same height & not causing the stand to tilt.

You will answer these three questions when you submit at the end of Phase (N).

1. What did I actually do?

Task 1:

Task 2:

Task 3:

Task 4:

2. What did I learn as an engineer?
