

Team: P19105 Engineer: Avinash Ananth – Project Manager

Entering Phase: System Design Review

What do I plan on doing to ensure that Team P19105 has a successful Phase System Design Review?

1. Each team member should 3-5 specific tasks that he or she will complete prior to the next review.

Task 1: Create Use Case Scenario flow map

Task 2: Meet with P18102 PM to coordinate project goal dates

Task 3: Build work breakdown structure in VISIO

Task 4: Create Gantt chart in Trello

Task 5: Build transaction logbook

You will answer these three questions when you submit at the end of Phase (N).

1. What did I actually do?

Task 1

Task 2

Task 3

Task 4

Task 5

2. What did I learn as an engineer?
