

**Team: MSD - P19105    Engineer: Stelios Moisdidis**

**Entering Phase: 2 - System Design**

**What do I plan on doing to ensure that Team P19105 has a successful Phase (2) review?**

1. Each team member should 3-5 specific tasks that he or she will complete prior to the next review.

Task 1: Meet with Felix, and discuss current electrical components and sensors.

Task 2: Discuss and review last years power distribution and sensors plan

Task 3: Decided on manufacturing procedures, and list of required electrical material.

Task 4: Create schematics and layout with calculations for power and sensors.

**You will answer these three questions when you submit at the end of Phase (N).**

1. What did I actually do?

Task 1:

Task 2:

Task 3:

Task 4:

2. What did I learn as an engineer?
