

Importance Ranked on a 1 - 9 Scale.

Customer Rqmt. #	Importance	Description	Status
CR1	9	The software must identify the location to engage the buttons/contact via video recognition (software will be provided by Lockheed)	
CR2	9	The weight of the robotic head must be reduced by approximately 50%	
CR3	9	Keep project under budget (\$7,500)	
CR4	9	Safe to operate	
CR5	9	Device is able to accommodate a variety of MFD sizes	
CR6	3	The robotic head height & width must be reduced to approximately 50% of its current size	
CR7	3	The movement time between position to position should be reduced by 50%.	
CR8	3	Ensure wire routing & power supply mounting are robust and immune to accidental damage.	
CR9	1	Device is easily transportable/detachable	
CR10	1	Device can be operated in any orientation	
CR11	1	Device can operate without Internet access
