

Team: P20652 Engineer: Seth Deane

What were the outcomes of the prior phase?

1. What did I plan to do?
 - a. Maintain EDGE.
 - b. Document progress with photos and data.
 - c. Begin progress on the technical report and poster.
 - d. Assist with the build of the 2D design.
 - e. Perform concrete testing.
2. What did I actually do?
 - a. Maintained EDGE by preparing this phases page with pertinent photos and documents.
 - b. Documented progress with photos and data.
 - c. Began progress on the technical report and poster. Both the technical report and paper are outlined and have a good portion of the technical information added. It needs to be edited now.
 - d. Performed concrete testing.
3. What did I learn? How were plan and reality different?
 - a. The 2D assembly was slowed down by the receiving of some fastening hardware, so we were unable to work on that until the phase was completed.

Team level goal for next phase

Build, test and document Z axis of printer. Finish testing and print a 3D object!

What do I plan on doing to ensure that my team has a successful review at the end of the next phase?

1. Continue to edit, add to, and improve the technical report and poster.
2. Assist with any construction of the 3rd axis.
3. Document building and concrete testing.
4. 3D print gussets.

What is standing in my way of meeting my next phase goals?

Nothing stands in the way of my personal tasks for this stage.
